PARKWAY CLINICAL LABORATORIES

Premier Service by Design

Methadone
Ecstasy
Oxycodone
Klonopin
Buprenorphine
Cocaine
K-2 Spice

Addiction & Prescription Monitoring

Tricyclic Anti-depressants
Codeine
Bath Salts
PGx
Xanax
Fentanyl
THC Delta 9

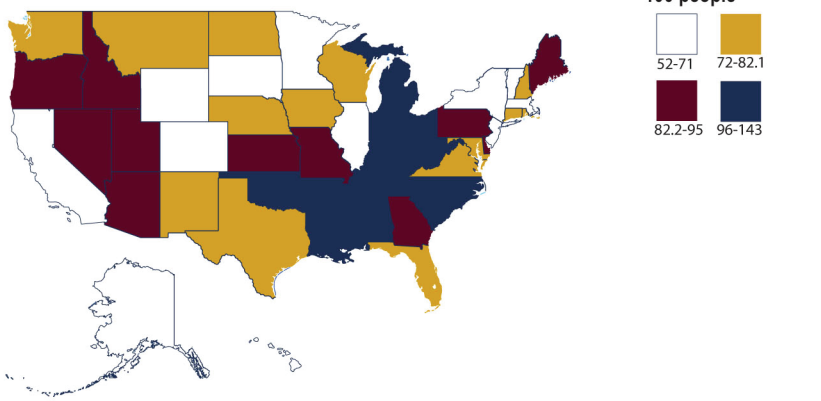
In today's highly complex, continually evolving healthcare arena, there is an ever increasing need for specialized laboratory service that are dependable, efficient and convenient for healthcare professionals and patients. We, at Parkway Clinical Laboratories (PCL), fulfill that need by providing quality diagnostic testing with premier service.

Raza Bokhari, MD
Chairman & CEO

Parkway Clinical Laboratories (PCL) is a College of American Pathologists (CAP) accredited, CLIA certified, national, full service specialty toxicology laboratory. It has been a trusted partner in delivering in-vitro diagnostic testing for more than four decades, primarily serving behavioral health, addiction and pain management specialists.

PCL is equipped to perform semi quantitative urine and saliva based substance abuse screening, using Enzyme Immunoassay (EIA) methodology and opioid and other prescription medication monitoring, using LC/MS/MS quantitative analysis and pharmacogenomic evaluation.

Accepting Specimens From All 50 States



Why is PCL the right choice?

- Accepts specimens from across United States including New York
- Client driven custom panels
- Final reports available within 24-48 hours
- Same day lab reports available for urgent prescription refills
- Bi-directional EMR interface with no patient volume threshold
- Online test ordering and reporting via secure web portal
- Correlation of flagged lab results with credible reference lab (at no additional charge)
- Professional consultation with qualified toxicologists & laboratory specialists
- Drug cross-reactivity & contraindication analysis

Addiction & Prescr

LC/MS/MS Test Menu

AMPHETAMINES PANEL
- Amphetamine
- Methamphetamine
    - o D/L Methamphetamine Isomers
- MDMA
- MDA
- MDEA

BARBITURATES PANEL
- Butalbital
- Pentobarbital
- Phenobarbital
- Secobarbital

BENZODIAZEPINES PANEL
- 2-Hydroxyethylflurazepam
- 7-Aminoclonazepam
- Alprazolam
- Chlordiazepoxide
- Clonazepam (Klonopin)
- Desalkylflurazepam
- Diazepam
- Lorazepam
- Midazolam
- Nordiazepam
- Alpha-Hydroxy Alprazolam
- Alpha-Hydroxy Midazolam
- Alpha-Hydroxy Triazolam
- Oxazepam
- Prazepam
- Temazepam
- Zolpidem

BUPRENORPHINE PANEL
- Buprenorphine
- Naloxone
- Norbuprenorphine

COCAINE PANEL
- Benzoylecgonine
- Cocaine

METHADONE PANEL
- EDDP
- Methadone

OPIATES PANEL
- 6-Acetyl Morphine (Heroin)
- Codeine
- Hydrocodone
- Hydromorphone
- Morphine
    - o Morphine 3-Gluconoride
    - o Morphine 6-Gluconoride
- Norhydrocodone
- Noroxymorphone
- Oxycodone
- Oxymorphone

PROPOXYPHENE PANEL
- Norpropoxyphene
- Propoxyphene

ANTIDEPRESSANTS PANEL
- Amitriptyline
- Clomipramine
- Desipramine
- Doxepin
- Fluoxetine
- Imipramine
- Norclomipramine
- Nordoxepin
- Nortriptyline
- Sertraline
- Trimipramine

ADDITIONAL PANELS
- Bath Salts
- K-2 Spice
- Specimen Validity

ADDITIONAL TESTS
- Cathine
- Cathinone
- Cotinine
- Dextromethorphan
- Diphenhydramine
- Ethyl Glucuronide
- Ethyl Sulfate
- Flunitrazepam
- Ketamine
- Mitragynine
- Phencyclidine (PCP)
- THC Delta 9 (Marijuana)

PRESCRIPTION MEDICATIONS
- Alprazolam (Xanax)
- Amitriptyline (Elavil)
- Amobarbital
- Amphetamine (Adderall)
- Aripiprazole (Abilify)
- Buprenorphine (Suboxone, Subutex)
- Bupropion (Wellbutrin, Zyban, Aplenzin)
- Buspirone
- Butalbital (Esgic, Fioricet)
- Carisoprodol (Soma)
- Chlordiazepoxide (Librium)
- Citalopram (Celexa)
- Clonazepam (Klonopin)
- Codeine (Tylenol III, Tylenol IV)
- Cyclobenzaprine (Flexeril, Amrix)
- Diazepam (Valium)
- Desipramine (Norpramine, Pertofrane)
- Doxepin (Deptran, Sinequan)
- Estazolam
- Fentanyl (Actiq, Duragesic, Fentora)
- Fluoxetine (Prozac)
- Flurazepam
- Gabapentin (Neurontin)
- Hydrocodone (Lorcet, Lortab, Norco, Vicodin)
- Hydromorphone (Dilaudid, Exalgo)
- Imipramine (Tofranil)
- Lamotrigine (Lamictal)
- Lorazepam (Ativan)
- Meperidine (Demerol)
- Meprobamate
- Methadone (Dolophine)
- Methylphenidate (Ritalin)
- Mirtazapine (Remeron, Remeronsoltab)
- Morphine (Avinza, Kadian, Ms Contin)
- Naltrexone (Vivitrol)
- Nortriptyline (Aventyl)
- Oxazepam (Serax)
- Oxycodone (Oxycontin, Percocet, Roxicodone)
- Oxymorphone (Opana)
- Paroxetine (Paxil, Pexeva, Brisdelle)
- Pentazocine
- Pentobarbital (Nembutal)
- Phenobarbital (Luminal, Solfoton)
- Phentermine
- Pregabalin (Lyrica)
- Quetiapine (Seroquel)
- Sertraline (Zoloft)
- Tapentadol (Nucynta)
- Temazepam (Restoril)
- Tramadol (Ultram, Ryzolt, Synapryn)
- Trazodone (Oleptro)
- Topiramate (Topamax, Qudexy)
- Venlafaxine (Effexor)
- Zaleplon (Sonata)
- Zolpidem (Ambien)
- Zopiclone (Zimovane, Imovane)
